Subject: Supplier 1 Banmedica – Sanna/Pacifico Discovery Call Results and Next Steps

Dear Banmedica, Supplier 1,

Thank you for your collaboration during the recent Discovery Call meeting to confirm services provided by Supplier 1 Banmedica to Sanna/Pacifico. We value our relationship and appreciate the work that you perform on our behalf.

We are contacting you to inform you that Supplier 1 Banmedica is in scope for the Supplier Risk Management program. This decision is based on your organization's access to personal or sensitive data* as a component of your organization's engagement with Sanna/Pacifico. As mentioned during the Discovery Call, your organization will need to complete an online External Risk Assessment (ERA).

The first step towards completing the assessment is to register for an One HealthCare ID in order to access our External Vendor Portal (EVP). This tool is used to transmit information and exchange documents in a secure environment. Please refer to the [Register for the One Health Care ID Guide](#) for step-by-step instructions. The one-time registration process will trigger an email communication that will include a link to EVP and allow you to initiate the External Risk Assessment, which consists of a questionnaire, attestations, and supporting evidence (as applicable).

Upon successful completion of the assessment process, your organization will have validated general adherence to information security requirements.

Do not hesitate to contact us nancy.calderon@uhc.com.

Regards,

Nancy

* Personal data/information: Information related to identified or an identifiable individual, which is collected, received, created, classified, processed, used, reproduced, stored, filed, maintained, disclosed or transmitted that requires controllers and processors to take technical and administrative measures to protect personal data from unauthorized access, accidental or legal destruction, loss, alteration and exposure. Depending on the jurisdiction or regulation, "Personal Information" may be referred to as "Personal Data" or "Personally Identifiable Information".

* Sensitive data/information: It is personal information about racial or ethnic origin, religious belief, philosophical or other beliefs, political opinions, affiliation to unions or organizations of a religious, philosophical or political nature, genetic or biometric data that uniquely identifies an individual or Personal Information revealing health, sex life or sexual orientation.

MY ASSIGNED RECORDS

Welcome to the Supplier Risk Management Program External Vendor Portal

Due to our ongoing obligation to ensure the privacy and protection of our customers' personal and sensitive data, as well as changes in the global regulatory environment, we implemented the Supplier Risk Management program. The main goal is to ensure that suppliers have the appropriate security controls in place to effectively protect personal and sensitive data by completing an online External Risk Assessment (ERA) and fulfill general adherence to information security requirements.

The External Vendor Portal is the tool we use in combination to additional Risk Management requirements, designed to transmit information and exchange documents in a secure environment which allows organizations to initiate the External Risk Assessment, consisting of a questionnaire, attestations, and supporting evidence (as applicable).

You are here because your organization is in scope of the Supplier Risk Management program. This decision is based on your organization's access to personal or sensitive data as a component of your organization's engagement with our organization.

For External Vendor Portal related technical issues send an email to optumsupport@optum.com.
For general questions contact the Information Security Analyst assigned to your individual assessment.

Congrats you are done! Welcome to One Healthcare ID

Bem-vindo ao Programa de Gerenciamento de Riscos de Fornecedor Es Portal de Fornecedores Externos

Devido à nossa obrigação contínua de garantir a privacidade e a proteção dos dados pessoais e confidenciais de nossos clientes, bem como mudanças no ambiente regulatório global, implementamos o programa de Gerenciamento de Riscos de Fornecedores. O objetivo principal é garantir que os fornecedores tenham os controles de segurança adequados para proteger efetivamente dados pessoais e confidenciais, completando uma Avaliação de Risco Externo (ERA) on-line e cumprir a adesão geral aos requisitos de segurança da informação.

O Portal do Fornecedor Externo é a ferramenta que usamos em combinação com requisitos adicionais de Gerenciamento de Riscos, projetados para transmitir informações e trocar documentos em um ambiente seguro que permite às organizações iniciar a Avaliação de Risco Externo, consistindo de um questionário, atestados e evidências de suporte (conforme aplicável).

Você está aqui porque sua organização está no escopo do programa de Gerenciamento de Riscos de Fornecedores. Essa decisão é baseada no acesso da sua organização a dados pessoais ou confidenciais como um componente do engajamento da sua organização com nossa organização.

Se você tiver algum problema técnico relacionado ao Portal do fornecedor externo, envie um e-mail para optumsupport@optum.com. Para perguntas gerais, entre em contato com o Analista de Segurança da Informação designado para sua avaliação individual.

Subject: Supplier 1 Banmedica – Sanna/Pacifico Discovery Call Results and Next Steps

Dear Banmedica, Supplier 1,

Thank you for your collaboration during the recent Discovery Call meeting to confirm services provided by Supplier 1 Banmedica to Sanna/Pacifico. We value our relationship and appreciate the work that you perform on our behalf.

We are contacting you to inform you that Supplier 1 Banmedica is in scope for the Supplier Risk Management program. This decision is based on your organization's access to personal or sensitive data* as a component of your organization's engagement with Sanna/Pacifico. As mentioned during the Discovery Call, your organization will need to complete an online External Risk Assessment (ERA).

The first step towards completing the assessment is to register for an One HealthCare ID in order to access our External Vendor Portal (EVP). This tool is used to transmit information and exchange documents in a secure environment. Please refer to the [Register for the One Health Care ID Guide](#) for step-by-step instructions. The one-time registration process will trigger an email communication that will include a link to EVP and allow you to initiate the External Risk Assessment, which consists of a questionnaire, attestations, and supporting evidence (as applicable).

Upon successful completion of the assessment process, your organization will have validated general adherence to information security requirements.

Do not hesitate to contact us nancy.calderon@uhc.com.

Regards,

Nancy

Bienvenido al Portal de Proveedores del Programa de Gestión de Riesgos Externos

Debido a nuestra obligación continua de garantizar la privacidad y protección de los datos personales y sensibles de nuestros clientes, así como los cambios en el entorno regulatorio global, implementamos el programa de Gestión de Riesgos de Proveedores. El objetivo principal es garantizar que los proveedores cuenten con los controles de seguridad adecuados para proteger eficazmente los datos personales y confidenciales completando una Evaluación de Riesgos Externos (ERA) en línea y cumpliendo con los requisitos generales de seguridad de la información.

El Portal de Proveedores Externos es la herramienta que utilizamos en combinación con requisitos adicionales de Gestión de Riesgos, diseñada para transmitir información e intercambiar documentos en un entorno seguro que permite a las organizaciones iniciar la Evaluación de Riesgos Externos, que consiste en un cuestionario, attestations y pruebas de apoyo (según corresponda).

Usted está aquí porque su organización está en el ámbito del programa de gestión de riesgos de proveedores. Esta decisión se basa en el acceso de su organización a datos personales o confidenciales como componente de la interacción de su organización con nuestra organización.

Para preguntas técnicas relacionadas a Portal de proveedores externos (EVP) enviar un correo electrónico a optumsupport@optum.com. Para preguntas generales, póngase en contacto con el Analista de seguridad de la información asignado a su evaluación individual.

¡Felicitaciones, usted a terminado! Bienvenido a One Healthcare ID
