PAC

REPORT

U.S. Political Contributions & Related Activity

LETTER FROM THE CHAIRMAN

The 300,000 employees of UnitedHealth Group are dedicated to making a difference in the lives of the 141 million people we are privileged to serve, one person and one health system at a time.

Health care remains an extremely important and deeply personal priority for Federal and State policy-makers, and the constituents and communities they represent. UnitedHealth Group values the opportunity to participate meaningfully in the ongoing national conversation about health care and to share proven solutions and best practices that aim to address the total cost of care, advance health care quality and outcomes, and improve the health care experience for everyone. The UnitedHealth Group PAC is one element of our comprehensive efforts to engage elected officials and communicate the breadth and scope of our Enterprise's capabilities and expertise to help solve complex health care challenges.

The UnitedHealth Group PAC is a nonpartisan political action committee funded entirely by voluntary contributions from eligible employees to support Federal and State candidates, political parties, and other political action committees who champion policies that increase affordability and access to quality health care. All PAC contributions and corporate contributions are made in accordance with applicable election laws and overseen by the UnitedHealth Group Board of Directors' Public Policy Strategies and Responsibility Committee.

UnitedHealth Group is committed to advancing actionable policy solutions with Federal and State policy-makers on how best to create a modern, high-performing, simpler health care system, and delivering on our mission of helping people live healthier lives and helping make the health system work better for everyone.

Stephen M. Heyman

UnitedHealth Group PAC Chairman
Senior Vice President of External Affairs

POLITICAL CONTRIBUTIONS AND RELATED ACTIVITY

UnitedHealth Group’s mission is to help people live healthier lives and help make the health system work better for everyone.

UnitedHealth Group engages in efforts to help shape and inform public policy decisions that have the potential to improve the quality and delivery of health care and that affect our customers, employees, consumers, and the communities in which we operate. We have a corporate responsibility to our customers, our employees, our shareholders, and the people we serve across the health care community to continue to:

- › Foster innovative solutions that produce consistent, high-quality health care at a lower cost and improve consumer satisfaction with a sustainable health care system;
- › Ensure that all Americans have access to quality, affordable health care coverage; and
- › Support and develop proven best practices and apply information and technology to support a more modern health care system.

ADVOCACY ACTIVITIES

POLICIES, PRACTICES, AND PRIORITIES

UnitedHealth Group engages in activities to advocate for our positions on public policy issues with elected officials and other stakeholders at the International, Federal, State, and Local levels – issues that affect our company, shareholders, employees, and customers. Our goal is to help shape and inform public policy decisions that have the potential to affect our business, customers, employees, consumers, and the communities in which we operate, and accomplish our mission of helping people live healthier lives and helping make the health system work better for everyone. Our legislative and advocacy priorities at the Federal and State levels are set forth in *The Path Forward: A Modern, High-Performing, Simpler Health Care System*, which outlines actionable policy solutions to most effectively expand access to coverage, lower health care costs, and provide quality outcomes, and is available on our website. Our lobbying disclosure reports filed with the U.S. Congress are available at <http://disclosures.house.gov/ld/ldsearch.aspx>.

PROCEDURES AND BOARD AND MANAGEMENT OVERSIGHT

Advocacy efforts are led by External Affairs with participation throughout our businesses, and are subject to oversight by senior UHG management and the Public Policy Strategies and Responsibility Committee of our Board of Directors. In addition to overseeing our advocacy efforts, the Public Policy Strategies and Responsibility Committee assists the Board of Directors in fulfilling its responsibilities relating to our public policy, health care reform and modernization activities, political contributions, government affairs, community and charitable activities, third party activities (including trade associations and industry groups), and corporate social responsibility, and is responsible for overseeing the risks associated with these activities. The Committee receives regular reports from our leadership on these matters, oversees our policies, and reviews the purposes and benefits of these activities at each meeting. The Committee provides reports of its activities to our Board of Directors at each in-person meeting.

Our activities include the work of educational outreach and promotion, campaign contributions, and, in certain instances, lobbying and other related activities. These activities are reviewed by legal counsel in addition to the Public Policy Strategies and Responsibility Committee and are included in the total annual fiscal budget, which is subject to the approval and oversight of our Board of Directors. UnitedHealth Group made no independent expenditures in 2018. The Public Policy Strategies and Responsibility Committee adopted a political contributions policy which we have made available on our website at www.unitedhealthgroup.com/About/CorporateGovernance.aspx. The political contributions policy summarizes the policies and procedures that we follow with respect to political contributions.
